SNIVELY

FIRST APPEARANCE SONIC THE HEDGEHOG #8
March 1994

FULL NAME Colin "Snively" Kintobor Jr

RANK Assistant to the despot Robotnik

BORN 134 / 3206 EYES Red

HAIR Black (what little there is of it due to mole pattern baldness)

HEIGHT 68 mm. WEIGHT 7.9 stone

KNOWN FAMILY Colin Kintobor (father robotized, whereabouts unknown), Julian Kintobor (uncle - presumed dead, AKA Warlord Julian, Dr Ivo Robotnik), Hope (step-sister)

KNOWN FRIENDS None you could honestly apply the word to

KNOWN ENEMIES Too numerous to list due to the treacherous nature of the little twerp

HISTORY Colin Kintobor, Jr came into the world in a most difficult way, losing his mother in the process as she died giving birth. Raised by a father with no parenting skills to speak of, young Colin would suffer a difficult childhood as well.

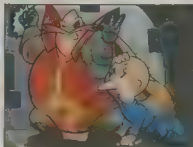

As he grew, young Colin developed an interest in electronics, albeit more as a user than a creator to compensate for his lack of social skills. For every friend he'd make, young Colin would soon discover some reason to resort to treachery in order to take advantage of the relationship, thus developing a reputation for being a bad apple in short order.

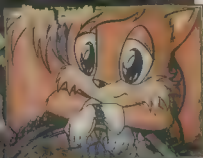

During his teen years, his antics crossed a line his father was not willing to tolerate. After receiving the boot from his father, young Colin - who by now wore the derisive nickname "Snively" that his father had given him like it was some badge of honor - went to work for his uncle Julian Kintobor.

Having ensconced himself as Warlord of the Acorn Kingdom, Julian would scheme with Snively in a mad plan to seize control of the kingdom and eventually rule over the entire planet Mobius upon ousting his uncle in this endeavor. Snively soon found himself being treated no better than a second-class lackey and began scheming to rid himself of his uncle as well.

When opportunity presented itself in the form of the Ultimate Nullifier, Snively rigged the device to affect only his uncle, which literally zapped Julian - by now notoriously known the world over as the evil Dr Ivo Robotnik - out of existence. His triumph was short-lived, as he was captured by the Freedom Fighters, and sentenced to an island prison known as the Devil's Gulag for his crimes.

Snively gained his freedom some time later when an unknown benefactor provided the means of escape for him and several other prisoners. He later discovered his benefactor to be none other than Robo-Robotnik, who decided to recruit Snively for his own nefarious schemes. Snively temporarily escaped and joined forces with the Freedom Fighters, only to eventually be recaptured by Robo-Robotnik. When presented the opportunity to take his revenge against his father, Snively went along with Robo-Robotnik's plans, even though it resulted in his own robotication.

DIMITRI

NOTE: Dimitri and his twin-brother Edmund were born to Byron of the House of Jordann and his wife Caro-Lyn. By the time Dimitri and Edmund were in their teens, they were at the top of their class when it came to physics, chemistry and biology.

As they grew into adulthood, Dimitri became obsessed with the idea of restoring the Floating Island back to its original location on the surface of the planet Mobius. He recruited his brother Edmund to assist, and thus laid the groundwork for an innovative yet daring plan.

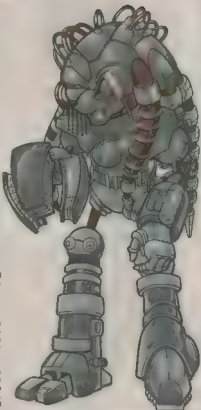

Upon submitting the plan to High Council for review, Dimitri was outraged when it was rejected outright without so much as a vote. He then stormed out of the council chambers, vowing to take matters into his own hand. His brother Edmund later discovered Dimitri utilizing the Chaos Syphon in an attempt to carry out their original goal, only to see the plan backfire when the device overloaded, completely charging Dimitri full of Chaos energy.

Driven mad by the excess power now coursing through his body, he was overcome by the efforts of Edmund and a courageous battalion of fire-ants, ending up in a crypt of his own creation for well over three hundred years. During that time, he was able to recharge his energy which restored him to full strength, thus providing the capability of escaping his dark prison.

Upon his re-emergence into the world, he donned the warrior uniform of ancient Echidna generals and called himself Enejak, seeking vengeance on those who wronged him, even if they happened to be the current-day descendants of a people he hadn't dealt with in centuries.

Once again he lost, only this time to Knuckles the Echidna, a descendant of his brother Edmund. He would do battle once again with Knuckles, only to have his Chaos power drained by Mammoth Mogul. The loss of energy resulted in a massive physical deterioration, requiring an extreme surgical procedure involving the use of extensive cybernetic implants.

Since then, Dimitri has discovered that Knuckles naturally possesses the ability to wield the Chaos energy far beyond his own capacity, and has sought to exploit that knowledge towards his own ends.

THIS JUST IN!

Join me to introduce a new writer who needs no intro. But before that, an "A" for

Wazzy back in 1994, when senior editor Justin Gabrie asked me to write my first comic story. I was beyond excited there was my chance to try my hand at writing a character I'd had really excited in a video game! That first adventure was titled "Brain Bytes" and presented in *SONIC THE HEDGEHOG* #55 (as well as the rest of the creative team) wasn't credited that issue due to a printing error, and it's just as well.

When I look back at that story, I can tell it wasn't my finest effort, though I been writing comic since '84, I hadn't done it consistently enough to be anywhere near the level of a seasoned professional. However, Archie Comics and IDG must've thought it was pretty good and it was my first hand at comic. After that issue #54, then issue #57, finally, when offered me the job of chronicling of her first adventure on a monthly basis, starting with #62. Which ever time I'd be writing the comic for the next 100 years!

Taking a tip from television, I decided to approach #62 to #74 as Season One and #75 to #87 as Season Two to give that first last bit, what happened? Well, and Tails, returned from the usual Robotnik world war with Nate Morgan, Patricia Tilly's long-lost brother and mother were found a brand new Robotnik debuted. Plus the magazine arrived on the scene the *SONIC ADVENTURE* game adaptation and its secret *SONIC ADVENTURE 2* granted the Dreamcast system, and way more happened than I can possibly recap here.

On each occasion, I was aided and abetted by several talented artists, cover provider Patrick Spaulance, Sam Maxwell, Art Hawthorne, Nelson Ortega, Steven Butler, James Fry, Ron Lee, and Wilson Adams came to mind. Thanks, guys.

When I learned that *SONIC* was going to go from bi-monthly to monthly, I decided that #88 to #90 would be our Season Three. In this story arc, "Sonic" heroes, specifically focused more on their King Pin Queen. As a consequence from the corporate side (I'd been in since being introduced to issue #69) Prince Elias was appointed acting head of state with Geoffrey St. John fully guiding the... well, fully came to world the mystery. Sworn to Archie, later on, his knight's later, Nate Morgan, and his freedom for his own his friends, and the Robotnik regained their free will. Where? Well, it's all there.

So what's next? Well, next some kids off a two-part story titled, "Crushing Hedgehog, Hidden Dragon" which is significant for two reasons. Firstly because it sends Sonic and the freckle gang on a quest to Hobson Square once more where they'll encounter an old friend as well as a new threat. And secondly, it marks the beginning of my last two comic story-arc. Like I said, what else I say?

And after that? Well, that would be telling, and I'm not ready to tell that yet. As with my story arc, I want to keep you five readers coming back.

...so let's make a deal, okay? If you visit this editorial page next month, I'll reveal some of those upcoming plans which will, of course, be budgeting-related.

See you soon,

P.S. Fan letters and fan products are next with your letters and the coming attractions. So visit it early, folks.

Dear Sonic-Grans,

I have recently finished reading issue #102. It was so cool! Now I wish I was really been living for Sonic, too. I hope things get better for her. Well, anyway... I have a few questions to ask. I'll be so grateful if you answered them.

- 1) What was the reason? (Please say YES)
- 2) What should I do to make a comic book?
- 3) What will become of Sally? Will she ever marry someone? Or something else?
- 4) Can you give me a hint?
- 5) Sally is so kind to ask to ask this, but why was she in the end to Pina in #102?
- 6) How old is Sally? Actually, I'm curious about almost all the characters ages.

Keep up the great work! I hope that you like the picture I sent.

Sally's #1 fan,

EDUARDO GUERRA, age 12

There wasn't a dry eye in the house here when seeing Sally's pages, as we understood you feeling, Elizabeth. As for your questions: 1) Something 2) There's always that chance 3) We're a team society to sell, and anything's possible 4) Based on Sally's kind, and knowing of Sally's affection for Sonic, was making a star in her own way that later was off-ones 5) Sally was born on the 15th day of the year 1125, and her stories take place in 1200, so depending what day of the calendar it is, that's her age. Incidentally, there are 125 days in a Mobian year, with 14 days extra every 500 "Sonic" years.

Sonic-Grans,

I just finished reading Sonic #102. The Sonic head story always continues and I like that. It means action and more story that doesn't just sit there like a lot of the past 50 ones did. The only problems were the fact that the story was a part 2 to Sonic #101 (the last issue I truly did not like) meaning that the story seemed too fast for the plot making it kind of jumpy. How can we make more books like this? We can do great work, but the art in Sonic #102 was...well...not quite there. It looked rushed, it might be tough to get more pages right now, but I remember that between issues #102 and #103 there were a lot of problems (like Art, Shattered, Brian Thomas, Sam Maxwell, Dick Brunel, Ben Probert, Patrick Spaulding, and Penny Gales to name a few) that provided a lot of exciting stories. While it was a little disconnected between issues, it probably allowed a break for some of the artists. Sonic's a good artist, but he seems tired and it's time for a pretty change so he can rest before his spot in the rotation comes up again.

The Ratchet story was cool. We really got to see one of the things that I wanted to see: whether or not the Chaos Spoken would have worked. Since single art wasn't that good of information to get and I love Sonic's art, I think he's the creating is a little far for a 102. Something to see that Elizabeth's death kept Ratchet from taking over the whole planet. Your years allowed it mean that Sonic is almost to appear and that you might not have chosen when for her yet. I suggest the colors Ratchet had in the Chaos game. Plus with a yellow ring.

I like the direction that's been set out since #98. Andrew "Dr. Big Redhead" SARTER P3, Sonic and Justin Gyles. The #102 mark was actually 3/4 of the way through issue #95. I have now #1/4 in my Sonic collection to prove it.

And 2000 would really be the last of the new releases, and that's what I want people to be celebrating it when. Look at it this way: there has been more work for us.

and-er, we're saying artist, and there's no the difference. As for this, we think he's doing a long-up job. When it comes to a limited title such as Sonic, usually everybody has an opinion of how it really should be done, and with such a wide range of opinions coming out, we think it's just no way out. I'm happy to hear that you're happy to hear that we're.

To the Sonic crew:

First off, I'd like to say that your comic is... Well, what can I say? Sonic can't really express what it is like to get it simply, it's wonderful. That's the big picture, but before you do, I want to say a whole lot more without actually going anywhere.

I've been hooked on Sonic (the page intended) ever since I read issue #114 when I was 10. I was back in '94 or '95. Now, it's really been 10 years! They go by quickly, don't they? I can still remember the time, when at the party-going table, playing against himself, the only was Gotta Watcher, a King Kong type monster with a clock in his chest cavity, built in a place with, was it a banana gun...? But I'm putting off the point.

I've realized that throughout my entire Sonic life, I've met some great writers (or types) for me to tell you what a great job you've done. For that I'm sorry. YOU GOT IT. AND THE BEST. But I'm putting off the point. I've realized that throughout my entire Sonic life, I've met some great writers (or types) for me to tell you what a great job you've done. For that I'm sorry. YOU GOT IT. AND THE BEST. But I'm putting off the point.

To me, Sonic is much more than just a comic series. It's much too personal to be just that. And don't think I'm some psychotic fanatic. I'm not. I'm just really thankful to have something like it when I did. I can only remember the good things, and that doesn't happen too often in real life.

So just like to point out some more things that are at the top of my head:

- 1.) I really wish you'd highlight your special years. I remember when Sonic-Grans used to get me pumped for all the new specials and what not, but now I'm holding at the back corner and seeing to many specials I had no time had come out, I'm at a loss?
- 2.) I know that you had to cancel Sonic's comic, but having him and Sonic was the best in a while. I'm not, because the adventures aren't as long and I get done reading the issue about two minutes after receiving it.
- 3.) Keep up the good work with the CD-Pand. It's great.
- 4.) The Japanese style truly rocks. I loved it when I first really started to notice the change.
- 5.) If there's only one thing to say, it's that Spaz is the master of covers. I love to see it. Finally, I'm just happy to have spent my childhood with Sonic. He's helped me see some great things, and I think I'm a better person for it. I hope to see the good times continue to roll. Thanks for all the memories! I hope this all didn't sound too nostalgic.

Your loyal fan,

Tom "Sonic-Best" NOLAN, WA

P3. I'd like to see anything you need because of space. I know my e-mail can be a bit verbose. During it, this whole e-mail 100 sound like nostalgia.

Dear my dear memory book you have done me in so well when I realized I've completed my eighth year of working on the comic and completing a lot of my own growth along that time. I was reading the script to my son in Indiana comic when the book was just a year old and now he's in high school. Boy, does time run by. By now that we're reading nostalgia, here's looking towards the future, and maybe new comics and new ones if conditions warrant.

Oops! I ran out of space once again, so check back with us next time for more comments, compliments and criticisms. Take care.

Next issue:

Sonic and the Freedom Fighters travel back to Station Square on a diplomatic mission for the Overlanders. Will they learn to our favorite Mobians even as they are being attacked by another Mobian? And how would it all be anyone that that, but they promised the readers wouldn't be disappointed. As for Ratchet, a mysterious echidna shows up in Echidnapolis, and you won't believe what her mission is and how she's related to Ratchet. It all begins in "Revolution Part I", with story and art by Ben and Owen. See you in 10!

And now, it's time where this month's wrap. (Sonic) I would be starting off with comments on SONIC #102, but every now and then I find it interesting when someone reads that as they have it. So here's my review of SONIC #102.

Dear Ben,

Firstly, I would like to congratulate Sonic Comic Team as you make Sonic through the ultimate #100 issue! I am now 19-years-old. I was introduced to Sonic, the Sonic Comics game 10 years ago. I continue to support Sonic games till now. After the appearance of Ratchet, I knew Ratchet comic (#71) as a book that was my very first Sonic-related comic. If I have not mistaken, my next issue of Sonic was #93. Thursday (October 20, 2007), I had just got my copy of Sonic #100 from book store. Actually in Malaysia, Sonic comic are considered difficult for me to buy these characters except at specified book stores. This sometimes, I will accidentally miss some past issues of it. Of course, I would feel regret. As the moment, I didn't know how and where to get back the past issues. This area gives me the best feeling. However, I have and I planned to report that I would cover you the #100 of Sonic!

Finally, thank you for reading my e-mail. Keep up your effort where I continue to support Sonic!

WONG RONN, SONIC'S MASTERMAN

I am always impressed by the lengths how such as you will go for our books. When considering our books are sold in a limited number of countries for a variety of reasons, it's always great to have someone is supporting our work when we have
